About

Full Stack Developer with a technical degree in Systems Development (SENAI) and currently pursuing a Bachelor's degree in Computer Science at UDESC. Strong focus on backend development using Java and Spring Boot. Seeking an internship opportunity in software development to apply technical skills in a professional environment and contribute to real-world projects.

Technical Skills

Development of REST APIs using Java (Spring Boot, Spring Security, JWT) and Node.js (Express), integration with PostgreSQL databases and basic Docker usage. Frontend experience with Angular, React and Next.js using TypeScript, Tailwind CSS and Bootstrap. Version control with Git, deployment with Vercel, and technical English (B1 level).

Experience

Intelbras - Administrative Apprentice

March 2024 – February 2025

- Supported administrative and operational processes, including invoicing, order management, supplier communication, and document organization.
